# CMT-1SPC

## *Docking station for Opticon OPN-2001, OPN-2005 and OPN-2006 with SPC-2*

Specifically designed to fit the OPN-2001's, OPN-2005's or OPN-2006's with our SPC-2 Silicone Protective Case installed. Enjoy the additional protection of the DOKKi SPC-2 case whilst still being able to dock the scanner without having to remove the silicone case before docking. The increased height of this model offers easier insertion of the scanner and better stability.

Ease of use by having your scanner in a fixed position instead of searching for cables on a daily basis. And, while inserted, your OPN is securely stored as well.

Both charging and communication capabilities are available. The dock itself uses no power, the OPN can be powered through the PC's USB port.
