

CMT-6SPC

6-bay Docking Station for Opticon OPN-200x with SPC-2

Specifically designed to fit the OPN-2001's, OPN-2005's or OPN-2006's with our SPC-2-xxx Silicone Protective Case installed. Enjoy the additional protection of the DOKKi SPC-2 case whilst still being able to dock the scanner without having to remove the silicone case before docking.

Providing similar functionality as the CMT-6, the CMT-6SPC can be used for charging only, or charging and communication. Each position on the CMT-6SPC will create it's own random Virtual Com Port (VCP) on the PC when a scanner is inserted.
