

CMT-6

6-bay Docking Station for Opticon models OPN-2001 and OPN-2006

This unique 6-bay docking station can handle any mix of up to six OPN-2001's and OPN-2006's (and also the discontinued OPN-2005). The increased height of this latest model offers easier insertion of the scanner and provides better stability.

The CMT-6 can be used for charging only, or charging and communication. Each position on the CMT-6 will create it's own random Virtual Com Port (VCP) on the PC when a scanner is inserted.

Box contents:

- 1 x CMT-6
- 1 x power supply
- 1 x USB cable

CMT-6 shown with OPN-2001's*
*barcode scanners NOT included
