Opticon OPI3601 is our new class leading 2D Imager based barcode scanner. Specifically designed to be one of the smallest and lightest handheld scanners available in the market today.

The Opticon OPI-3601 has already seen considerable success within our key market areas of Healthcare for wristband scanning and Retail for scanning of data matrix codes on retail produce and mobile phone barcodes for e-ticketing and coupon redemption.

Product Features

Opticon OPI3601 is a pistol style 2D CMOS imager barcode scanner supplied as a complete kit including hands free stand to allow users the option of hands free scanning or in the hand scanning.

The new superior quality scan engine is capable of reading even the most difficult to read barcodes, either printed or barcodes on mobile phone screens. We have developed the Opticon OPI-3601 with enhanced motion tolerance allowing for a faster scanning operation and a bright LED aiming function for simple and quick operation.

To compliment its advanced performance, the Opticon OPI3601 is capable of withstanding drops of 1.5 meters to concrete and is supported by a 2 year warranty.
