Description

The Opticon OPL9815, a Bluetooth™ laser scanner from Opticon, features GPS, a real-time clock and 18-key operation for data-capture applications that require location and time stamps, as well as data entry. The Opticon OPL9815 is perfect for inventory, logistics, warehouse and retail applications. Since the Opticon OPL9815 is programmable, channel partners can create custom solutions around the Opticon OPL9815 using the free SDK from Opticon.

Product Features

The Opticon OPL9815 has everything on board to ensure an optimal ease of use. A fast 32-bit processor, integrated barcode laser scanner, clear (alpha) numeric keypad, easy to read LCD display (with backlight) and a powerful, rechargeable, Li-Ion battery provide fast and highly efficient data entry and -processing in many applications.

Combine three types of registration at once; barcode data, time stamp and position tracking. Comfortable use
The shape of the product provides a convenient fit. The Opticon OPL9815 enables comfortable single-hand scanning. The LCD display allows easy readability of as many as 10 lines of information. The numeric keypad enables the user to navigate through the loaded application and add information to the scanned data.

Rugged. The Opticon OPL9815 is sealed up to IP 54 standards and withstands drops of 1.5 meter.

Flash ROM and RAM memory. The Opticon OPL9728 provides program and data storage

Various cradles are available providing communication and charging options. The IrDA interface within the cradle allows data transfer when the scanner is inserted for charging. The multiple station cradle permits charging of up to 5 terminals simultaneously.
