

Description

The Opticon L50C is a powerful linear CCD Imager which smoothly reads all common 1D barcodes with a rate of 300 scans per second, including high resolution barcodes.

Product Features

The Opticon L-50 is characterized by a sophisticated ergonomic design and a unique 'custom logo display area'. The scanner comes with an adjustable stand which makes this hand scanner very functional as a desk or counter scanner. The scanner is available in black and white. USB (HID), RS232 or Keyboard Wedge can be chosen as a communication interface.
