Opticon H-29 - WiFi only version

The H-29 is an ergonomic mobile computer with an alphanumeric keypad that comes with the Android 6.0.1 operating system, that has the functionality of a computer and a scanner, but with the experience of a smartphone. A 8MP camera with autofocus is included. We offer the SDK upon your order, easily supporting the design of your application according to your business' needs. Because it has Wi-Fi, GPS, and Bluetooth the H-29 is always connected, and ensures real-time data transfer.

The H-29 is equipped with GPS, and is therefore always traceable. Furthermore, the H-29 provides valuable information that can be used to analyze the workflow. It also comes with a USB-port for data transfer, and a high capacity battery. For demanding applications an extended battery is available. Altogether, the H-29 is the ideal scanning, analyzing, and service device all in one for workflow optimization.
