Opticon H-33 4G GPS

Opticon's most ergonomic and dependable mobile computers that come with an Android 9 operating system. Opticon's H-33 incorporates a brilliant 5" full-color FHD touch screen, and a 16 MP rear camera providing a user-friendly interface with the functionality of a computer and a scanner.

Opticon provides full and immediate support via your local office for all of our devices. With the H-33 you are investing in a fully supported product, which includes a two-year warranty and has additional service contracts available. To extend the durability of mobile computers, a bumper accessory is available.

Applications

Through its various features, Android mobile computers provide an all-in-one solution for a variety of markets such as logistics, postal services, healthcare, merchandising, inventory management, field sales, and more. Raising performance efficiencies to the next level, and optimizing communication among various departments in complex work environments.

How we describe the H-33

As the Android platform quickly develops, we at Opticon work simultaneously to provide our customers with the top of the line mobile computers. Proceeding a successful launch of the H-28, Opticon now offers our newest mobile computers with Android 9 capabilities, the H-33. By integrating barcode scanning, analytics, and service solutions for industries such as logistics, postal services, healthcare, merchandising, and transportation, Opticon's Android devices are the ideal solution for today's mobile workforce. The device is equipped with a 2D imager barcode scanner and are Bluetooth 4.1 LE, 4G, WiFi and NFC supported.

As a mobile computer, the H-33 is equipped with a 16 MP rear-facing camera with autofocus and LED flash, high capacity battery life for workers on the go, and a high-end scanner with Opticon's superior barcode scanning technologies. The H-33 is dust and water-resistant, they were built to withstand the toughest work environments with their rugged design and IP 67 rating. The Gorilla Glass touch screen also protects the devices from scratches and shattering. With the option of an additional bumper, both devices can withstand a drop up to 1.8m.
