

Description

Experience seamless barcode scanner management with OptiConnect, the dedicated mobile application by Opticon. OptiConnect empowers you to effortlessly connect and manage your Bluetooth Low Energy (BLE) barcode scanners directly from your smartphone. Whether you're a business owner, retail professional, or warehouse manager, OptiConnect streamlines your workflow by providing a comprehensive suite of features designed to enhance your barcode scanning experience.

Compatible with Opticon models:

- OPN-2006
- OPN-6000
- PX-20
- RS-3000

Key Features:

Simplified Scanner Setup and Configuration: Whether you're setting up your OPN-2006, OPN-6000, RS-3000 or customizing the PX-20, OptiConnect simplifies the process. Adjust settings, modify scan modes, and fine-tune scanner behavior with intuitive controls.

Effortless Bluetooth Connection: Establish a seamless Bluetooth connection. OptiConnect ensures a stable link between your smartphone and Opticon's BLE barcode scanners.

Seamless Barcode Scanning and Data Management: Use any of our supported models to scan effortlessly. OptiConnect offers a user-friendly interface for data management, boosting your productivity.

CSV File Import: Integrate existing CSV data directly into the app, streamlining your scanning operations.

Data Storage and Export: Safely store and easily export your scanned data. With OptiConnect, your valuable information is always accessible.

Why Choose OptiConnect?

OptiConnect isn't just an app; it's an optimized solution for Opticon's premier BLE barcode scanners, including the OPN-2006, PX-20 and RS-3000. Streamline retail checkouts, manage inventory, and improve data accuracy with OptiConnect. With its user-friendly design and integration with Opticon's barcode scanners, elevate your efficiency and productivity.

Download OptiConnect now. Experience next-level barcode scanning, simplify workflows, and stay ahead with OptiConnect.
