

Description

COMING SOON | *Currently in production, new stock expected in October!*

Silicone Protection Case [GREY] with USB flap for Opticon **OPN-2500** (*1)

This silicone cover fully encloses the scanner, protecting your scanner investment against intrusion from dust and dirt. This will save money and time on repairs. The USB flap covers the USB-C connection on the side.

(*1) Barcode scanner NOT included.

The anti-skid surface structure provides a good grip. Even though there are no openings for the beeper it still can be heard. The large scan button is covered and feels natural to operate as the design follows the scanners' contours. Also the bright LED is still visible as well. Below the large scan button a little raised bubble enables easy access to the small 'erase' button.

Alias article number: *Opticon 13402*
