Opticon OPN-3002 Bluetooth 2D memory scanner combines convenient barcode data collection with flexible communication options. The device allows storage and removal of barcode scans.

Product Features

The Opticon OPN3002 Bluetooth Companion Scanner (2D Imager) enables real-time barcode scanning into any Bluetooth ready device including Android, iOS, Blackberry and Windows. The Opticon OPN3002 scanner is extremely small, easily sliding into a pocket or on a keychain making it an ideal solution for field sales and service, retail point-of-sale (POS), inventory management, asset tracking and many more.
Even though it features one of the industry's most technically advanced 2D CMOS imager scan engines, the OPN3002 comes at a very affordable price point that enables any business to integrate barcode scanning into mobile applications.
