Description

The OPN-2001, part of the OPN-2000 series is a pocket memory scanner, enabling convenient barcode data collection. This device enables storage and removal of barcode scans. The collected barcodes can be transmitted by a USB cable.

This small and lightweight device is equipped with a memory that can store more than 15.000 barcodes. With a weight less than 30 grams, it can be put in every pocket and taken everywhere.

Ease in use
Using the OPN-2001 is straightforward. No special training is needed as users only need to press a trigger key to operate and a reset key to control mistakes. With the USB cable it is possible to send scanned data to a computer. The battery can also be charged using this cable.

Product Features

USB communication interface
For easy data transfer the Opticon OPN2001 is equipped with a standard USB port, which is also used to charge the internal battery.

Large internal memory
Over 10.000 codes can be stored and removed on the Opticon OPN2001 by the user at any time

Lightweight (only 28 grams)
Opticon OPN2001 Provides mobility and flexibility

Two button operation
The Opticon OPN2001 is Plain and simple to use
