## Description

---

 1D barcode  RS232

The Opticon F-70 is among the smallest CCD scanners with an operating speed of 700 scans per second. The Opticon F-70 fixed position scanner is a small, 700 scans per second CCD barcode reader designed to be easily integrated into host equipment. The Opticon F-70 replaces the Opticon NFT-7175.

---

### Product Features

The rugged sheet metal enclosure protects the optics and electronics from dirt and other environmental hazards. The F-70 is available in 2 models. This makes it easy to incorporate the scanner into your design. It offers a wide variety of configurable options for easy integration in your business process.

---

**Note: Comes without power supply 11052.**
