 1D barcode  wedge  IP42

**REMARK:** The **BLACK PS2** model has a **NEW** stand with metal baseplate and flexible arm!

Opticon OPL6845 R barcodescanner is available in both black and (off) white, the Opticon OPL6845 R barcodescanner is the perfect match for all kinds of PC, whilst Wedge, USB or RS232C interfaces guarantee a straightforward interface into both new and legacy systems.

---

## Product Features

### Hands-Free Scanning

The Opticon OPL6845 R barcodescanner Integrated auto-trigger while in complementing stand automatically initiates scanning to allow hands-free operation.

### High Performance Laser Scanner

The Opticon OPL6845R barcodescanner High performance laser scanner provides a fast and accurate first time scan and is immediately ready for the next scan even when the barcodes are printed with low contrast or high density.

### Durable construction with Modular stand

The stand of the Opticon OPL6845 R barcodescanner is made of the same solid materials as the housing of the scanner. The large base plate provides a stable position and a clear working spot on the desktop. The modular construction of the stand still keeps the package dimensions to limited size.

### Plug and Scan

The plug and play ability of the Opticon OPL6845 R barcodescanner allows the user to quickly connect and operate the scanner, thus putting its exceptional scanning performance to immediate use.
