 1D barcode  wedge  IP42

REMARK: The White PS2 model has a **NEW stand with metal baseplate and flexible arm!**

Opticon OPL6845 R barcodescanner available in both black and (off) white, the Opticon OPL6845 R barcodescanner is the perfect match for all kinds of PC, whilst Wedge, USB or RS232C interfaces guarantee a straightforward interface into both new and legacy systems.

Product Features

Hands-Free Scanning

The Opticon OPL6845R barcodescanner Integrated auto-trigger while in complementing stand automatically initiates scanning to allow hands-free operation.

High Performance Laser Scanner

The Opticon OPL6845R barcodescanner High performance laser scanner provides a fast and accurate first time scan and is immediately ready for the next scan even when the barcodes are printed with low contrast or high density.

Durable construction with Modular stand

The stand of the Opticon OPL6845 R barcodescanner is made of the same solid materials as the housing of the scanner. The large base plate provides a stable position and a clear working spot on the desktop. The modular construction of the stand still keeps the package dimensions to limited size.

Plug and Scan

The plug and play ability of the Opticon OPL6845 R barcodescanner allows the user to quickly connect and operate the scanner, thus putting its exceptional scanning performance to immediate use.
