Description

 **NOTIFICATION DISCONTINUED** | *Alternatives can be found under the 'Related products' tab, or contact us for assistance.*

The information below is for reference purposes only.

Potstar Standard

- **Unfortunately there is no alternative available**
- **We can build your CUSTOM application**

Potstar is an application generator for Opticon handheld terminals (discontinued models).

A fixed set of predefined functions is available. However, it seemed that with software development almost all applications need custom programming.

This fell almost always outside the scope of Potstar, hence further development was discontinued.
