Product Features

Scanning

The scanning parts of the Opticon OPR3201 barcode scanner are positioned near the central core of the grip to stabilize the hand movement while scanning. Together with the large grip, this makes it easier and more comfortable to target the barcodes.

Plug & scan

The auto-trigger feature of the Opticon OPR3201 barcode scanner and the complementing stand initiates automatic scanning and allows the user to operate instantly and hands free. Available in USB, RS232 and Keyboard Wedge connectivity options, the Opticon OPR3201 barcode scanner can be easily integrated into any host computer system as a plug and play device.
